Commodities and International Trade Finance

## Why the Global Market is Paying a Premium for This Skill Set

---

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Rising trade volumes | As global trade continues to grow, companies need professionals who can navigate complex logistics and financing arrangements to remain competitive | McKinsey Global Institute

Increasing commodity prices | With commodity prices expected to remain high, companies need experts who can manage risk and optimize supply chains to minimize costs | World Economic Forum

Growing demand for sustainable trade practices | As consumers and governments increasingly prioritize sustainability, companies need professionals who can develop and implement environmentally responsible trade practices | OECD
